LIMITED EDITION CABINETRY

If exclusivity is your décor rallying cry, do consider the new Hidden Hills Collection of fine-wood kitchen cabinetry. Designed by and made exclusively for East Hill Cabinetry of Briarcliff Manor and then hand-built and expertly installed by master Mennonite craftsmen, the cabinetry is available to a maximum of only eight homeowners a year. "Westchester-area residents deserve a kitchen as unique and special as the rest of their homes," says East Hill President Anthony Maucieri. "So each piece in the collection, much like fine custom furniture, is designed, built, and assembled according to their personal needs and desires."

The collection, made from handpicked New England hardwoods purchased from environmentally friendly loggers, features thick doors, shelves of solid wood, and self-closing drawers of solid maple dovetail. Sample designs are displayed in the East Hill showroom. Small kitchens start at \$35,000; prices include both cabinetry and installation. For more information: (914) 432-7341; easthillcabinetry.com.
